Nicky Click

I'm On My Cell Phone

Nicky Click is someone you have never heard before and are not likely to hear again.

Described as a "Queer Electro

Fembot Ext raordinaire,"

Nicky Click's creativity is indisputable. Her composition

of sounds and lyrics are not

quite song, not quite spoken

word but exist in the gray area

between. Her variety of electronic

sounds and sassy voice

stir the 80s up into the mix.

As Nicky Click explains, the

songs are of different personas

of herself, including Nicky

Click, Petunia Pie, Penelope

Paranoid and others - each

their own woman and each a

layer of Nicky Click. Thus,

her lyrics are sometimes superficially

go-lucky, sometimes

personal, sometimes

with a critical edge. The lyrics

bring out feminist and queer

politics in a refreshingly brazen

way. I'm On My Cell

Phone is a fantastic manifestation

of Nicky Click's thinking

and discerning ear.
